

454010 Dual Cartridge System 50ml 10:1 Ratio

Product Description

Moulded from high density polyethylene, dual component cartridges provide a safe and reliable method of filling and dispensing most two part epoxies, adhesives and silicones. These HDPE cartridges are white colour and feature a standard mixer nozzle attachment. All cartridge components are safe for use to 100 PSI and are silicone free plastics. Cartridges come with pistons and a tip cap seal which is removed when attaching static nozzle.

Typical Applications

Use these cartridges for two component adhesives, gels, pastes, silicones, sealants, epoxies and compounds. Once filled with material, cartridges can be used with standard manual and pneumatic dispensing guns.

Technical Information

Part Number	454010
Capacity	50ml/cc
Ratio	10:1
Max Fluid Pressure	Up to 100 psi
Construction	High Density Polyethylene
Colour	White

Packaging

Cartridges are supplied in packs of 100 or bulk packs of 1000.

Pricing and Lead Times

Our cartridges are competitively priced whether in a single box of 100 or in bulk packs. We hold extensive stocks and can ship for fast deliveries.

Options

Part ABM-25M10	50ml Manual Gun 10:1 Ratio
Part EDS408M	50ml Pneumatic Gun 10:1 Ratio
Part MA6.3-12S	50ml Mixer Nozzle 12 Elements
Part LA06-08	Mixer Nozzle Luer Lock Adapter
Part 7015LLPK	Tip Cap for Luer Lock Adapter
Part TTN20	20 Gauge Luer Lock Taper Tip

Health & Safety in Use

Cartridges are safe and hygienic, reducing risk of operator contact with the materials being dispensed.

Benefits

- Supplied with pistons and caps
- High density safe to 100 psi
- 10:1 Ratio
- Silicone free moulded plastics
- Use with manual or pneumatic guns
- Low draft internal diameter
- Available from stock
